For Immediate Release  
November 9<sup>th</sup> 2000  
**JST Demonstrates Kurzweil 3000**

On **Thursday November 9th** from 10-12PM JST will be providing an in depth demonstration of Kurzweil 3000, the dynamic software that brings printed word to life.

- Kurzweil 3000 provides a multi-sensory approach to reading with both visual and auditory feedback and benefits many learning styles.
- Kurzweil3000 helps students write more fluidly, while at the same time increasing accuracy in spelling and grammar.
- Students will be able to create written materials more quickly because text is spoken aloud as they type.

This will also be a great chance for districts who already own Kurzweil to make certain they are getting the most out of it.

**Seating is limited and filling up quickly! Please call 1-800-783-5780 now to reserve a seat.**
