Beal City Selects JST and Plato for Alternative High School

Job Skill Technology, Inc. (JST, Inc.) is proud to announce that Beal City Schools has selected JST, Inc and PLATO Learning to provide computer-based instruction for its alternative high school student population. PLATO's age-appropriate content allows the teaching staff to create individualized learning paths for students. Students that have been struggling (for any number of reasons) are now able to have more control over their learning, leading to greater motivation and greater success. Staff has found that the program is easy to administer, with content that is rigorous and appropriate for the students. Training and support provided by JST, Inc. rounds out the implementation. The initial implementation went so smoothly and was so well-received that the district added licenses within the first few weeks of use.

Job Skill Technology, Inc. is a leading solution provider of computer-based learning and educational tools for pre-kindergarten through adult learners. The company specializes in software, assessment and accountability solutions, e-learning, and hardware with special emphasis on technical support and training.

The company serves K-12 schools, alternative and adult education, state and local government, colleges and universities, correctional institutions, job training programs, corporations, and private industry.

Job Skill Technology, Inc. is headquartered at 1000 N. Opdyke Road, Suite D-2, Auburn Hills, Michigan 48326, 800-783-5780.
