Clinton County RESA Selects JST and Plato

Job Skill Technology, Inc. (JST, Inc.) is proud to announce that Clinton County RESA, along with several of its member school districts, has partnered with JST, Inc. and PLATO Learning to provide on-line curriculum for several programs throughout the county. The program will be hosted locally and delivered via the Internet to participating schools. PLATO allows teachers to individualize instruction and allows students to work at the appropriate level and pace. With content ranging in skill levels from K-12, the program will be used for remediation, enrichment and credit recovery. Students throughout the country have benefited from computer-based instruction as they build their academic skills and prepare to enter a workplace that increasingly expects employees to be technologically competent.

By working together and with JST, Inc., the RESA and its school districts have been able to create flexible programming while taking advantage of volume discounts. The implementation plan includes room for expansion as the need arises. JST, Inc. is the Michigan-based dealer for PLATO and will provide on-going support for the PLATO programming throughout the county.

Job Skill Technology, Inc. is a leading solution provider of computer-based learning and educational tools for pre-kindergarten through adult learners. The company specializes in software, assessment and accountability solutions, e-learning, and hardware with special emphasis on technical support and training.

The company serves K-12 schools, alternative and adult education, state and local government, colleges and universities, correctional institutions, job training programs, corporations, and private industry.

Job Skill Technology, Inc. is headquartered at 1000 N. Opdyke Road, Suite D-2, Auburn Hills, Michigan 48326, 800-783-5780.
