Monroe Public Schools Selects JST and Plato

Orchard High School in the Monroe Public School district has selected JST, Inc. and PLATO Learning for computer-based instruction. After careful consideration and evaluation of several products, the district purchased PLATO licenses. The staff at Orchard High School determined that PLATO Learning provides the best combination of content, delivery and reporting. In addition, PLATO provides the flexibility to meet student needs for remediation, enrichment and credit recovery.

The local training and technical support provided by JST, Inc. was also an important factor in the decision to implement PLATO. Working with JST, Inc., the school is able to provide PLATO to students via desktop and laptop computers, helping the school to maximize their investment. PLATO has been so well-received by staff and students that the school added licenses within the first month of use.

Job Skill Technology, Inc. is a leading solution provider of computer-based learning and educational tools for pre-kindergarten through adult learners. The company specializes in software, assessment and accountability solutions, e-learning, and hardware with special emphasis on technical support and training.
