## Mt. Pleasant Selects JST and Plato for High School

Job Skill Technology, Inc. (JST, Inc.) is proud to announce that Mt. Pleasant's Oasis High School has selected JST, Inc. and PLATO Learning to provide computer-based instruction to its high school population. After evaluating several products, the district selected the PLATO/JST solution for its content, cost and support. The program has been well-received by staff and students. The teaching staff recognizes that the management system is easy to use and powerful enough to manage classes and groups of students. PLATO meets their content standards. Where necessary, they are able to assign remedial, yet age-appropriate, activities to help students gain the skills they need to succeed in high school. Students appreciate the opportunity for self-directed learning. JST, Inc. has provided local support to help ensure a successful implementation.

Job Skill Technology, Inc. is a leading solution provider of computer-based learning and educational tools for pre-kindergarten through adult learners. The company specializes in software, assessment and accountability solutions, e-learning, and hardware with special emphasis on technical support and training.

The company serves K-12 schools, alternative and adult education, state and local government, colleges and universities, correctional institutions, job training programs, corporations, and private industry.

Job Skill Technology, Inc. is headquartered at 1000 N. Opdyke Road, Suite D-2, Auburn Hills, Michigan 48326, 800-783-5780.
