Walled Lake Implements District Wide Kurzweil from JST

Job Skill Technology, Inc. (JST, Inc.) is proud to announce that Walled Lake Consolidated Schools has begun a district-wide implementation of Kurzweil 3000 software. The district has recently upgraded to the current, network-based version of the software. By providing access via the network, staff and students will have broader access to the program.

Kurzweil 3000 is a software program that provides reading, writing and study skills tools to students. These tools allow students to access the curriculum in different ways, supporting the concept of Universal Design for Learning. Kurzweil also helps students to work more independently, which ultimately benefits both staff and students. For many, the program is a part of their future success in college and in the workplace.

JST, Inc. is the Michigan dealer for Kurzweil 3000 and will provide on-going support for the implementation throughout the district.

Job Skill Technology, Inc. is a leading solution provider of computer-based learning and educational tools for pre-kindergarten through adult learners. The company specializes in software, assessment and accountability solutions, e-learning, and hardware with special emphasis on technical support and training.

The company serves K-12 schools, alternative and adult education, state and local government, colleges and universities, correctional institutions, job training programs, corporations, and private industry.

Job Skill Technology, Inc. is headquartered at 1000 N. Opdyke Road, Suite D-2, Auburn Hills, Michigan 48326, 800-783-5780.
